

> EASY TO CARRY

> STORE VIRTUALLY ANYWHERE

> COMPACTS DOWN

## > Xtend & Climb™ Home

The all new Xtend & Climb Home has been designed specifically for our domestic customers – especially those with limited storage space. Arguably the most compact ladder on the market – it stores at a mere 0.68m and fully extends to a remarkable 2.59m.

Great for getting into the loft or up to those hard to reach places around the home. Just open it up, rung by rung, to your desired height and away you go.

The ergonomic design allows for smooth operation making it easy to adjust, even for those with smaller hands. The red/green lock tab indicators show you when the rung is locked in place and safe to climb.

- ✔ Clean-touch anodised finish
- ✔ Compacts down to 0.68m
- ✔ Store virtually anywhere
- ✔ 3-year warranty
- ✔ 150kg work load capacity
- ✔ EN131
